### Message from the Assistant Superintendent

Dear **one.** Parents and Families,

We at the **one.**Program are committed to finding the “right” educational program for your student. We want your student to be excited about learning and pursuing his/her dreams. We make every effort to adapt our programs to the needs and interests of our students. Towards that end, we have more exciting opportunities available for (y)our students! We have re-opened our Culinary Arts program at the former Yosemite Club in downtown Stockton and will open our third charter school, the Excel Academy, in August 2012.

We are offering morning and afternoon culinary arts classes at 311 East Main Street in Stockton that prepare students for a career in the restaurant industry. Students gain experience in nutrition, food preparation, cooking, hosting and serving. Our instructor, Greg Azevedo, has many years of experience in the restaurant industry and has successfully placed some of our students in local internships. If students are interested in our Culinary Arts program they should speak with their **one.** school teacher, counselor or director for more information.

In August of 2012, we will open the Excel Academy, a Collegiate Sports and Health Science Preparatory High School. Excel Academy will be located on Transworld Drive at the San Joaquin County Office of Education campus. Excel Academy is enrolling students for the 2012-13 school year who are currently in grades 6 through 11. Students will participate in competitive sports and a rigorous academic program. Excel Academy students must be genuinely interested in competing in athletics and committed to their education. Students will attend school from 8:30 a.m. to 3:30 p.m. weekdays and participate on athletic teams after school. Excel Academy will follow a “block” schedule with 90 minute classes to provide students and teachers sufficient time to learn and explore each subject area. All of the teaching staff will coach at least one sport to create continuity between the classroom and the athletic field. If you are interested in enrolling your student in the Excel Academy or would like more information go to <http://wiki.sjcoe.net/excel/Home.html> or call (209) 468-9026.

The **one.**Program is committed to adapting our programs to the needs and interests of our students. Our Culinary Arts program and Excel Academy offer your student two more outstanding choices!

Sincerely,

**James Mousalimas**

## one.® to one Coolness Quotient

*Behind the scenes of our extraordinary teachers in the one.Program*

*Ms. Angela Pascual, Instructor at one.Success*

1. *How long have you been teaching in the one.Program?* 12 Years and counting
2. *Tell us something about your place in the one.Program. Why you love what you do?*

**one.** Success is committed to building students foundational skills so they can have access to higher learning opportunities. I love to teach math and excite students about the possibilities that await them when armed with an education. I believe in building relationships via activities during school and after school.

3. *What makes your school site and classroom exceptional?*

I think what makes my classroom exceptional is humor combined with zero tolerance for madness :). The reality is that although we are all faced with crisis in our lives there is still a need to function daily, I try to model this for my students. It is important to tell the truth to students and I expect great things from all of my students.

4. *What are some of your hobbies or things you like to do outside the classroom?*

Reading and trying to get to the beach, Also I love watching MADEA and LAW and Order. I also enjoy my two grandsons as the saga as of the Pascual's continue, oh yeah!

---

*Mr. Doug Silva, Instructor at one.Harmony*

1. *How long have you been teaching in the one.Program?*

I have been teaching in the **one.** Program for the past 9 years in both North Stockton and now in Tracy.

2. *Tell us something about your place in the one.Program. Why you love what you do?*

I have been fortunate throughout my life to have great leadership in both sports, school, and my home life. I truly enjoy coming to work everyday and building positive relationships with kids while building success through consistency and work ethic.

3. *What makes your school site and classroom exceptional?*

We have built a unique sense of structure and responsibility at the site by holding students accountable and allowing them certain levels of freedom to take risks and be kids. With this style of school we hope to build leaders that understand their roles in life and want to achieve more. In class I try to bring many different "walks of life" into my mathematics classroom as well as curriculum integration with our Pre-Engineering ROP classroom at the site. With this said, I try to make everyday enjoyable for students which helps build a positive site culture.

4. *What are some of your hobbies or things you like to do outside the classroom?*

In my other life, outside of school, I love hanging out with my family; my wife Sara, my kids Chloe 9, Andrew 6, and my 3 year old twins Kennedy and Reese. They make me smile and always give me great comedic stories to tell my students the next day. I am also a basketball coach at Tracy High which is a good time.

**one.Charter**– Academy of Visual and Performing Arts now has 2 locations on Douglas & Bianchi in Stockton. **one.Charter** was founded to give students with artistic talent a sanctuary, allowing students freedom to use their creativity to learn and let their thought process grow.

At **one.Charter**, we integrate the arts into our core curriculum, while offering further enrichment classes in the arts after school.

All students are welcome to apply for **one.Charter**. We would love for new individuals to participate in our school...and remember, at **one.Charter** we **GET ACTIVE!**
