SJCOE Announces Results for County Math Competition

Two San Joaquin County schools tie for first place in seventh- through eighth-grade tournament

The Sixth Annual San Joaquin County Math Tournament for grades seven through eight was held on Saturday, April 29, at the San Joaquin County Office of Education (SJCOE). Overall there were about 190 seventh- through eighth-grade students from 19 schools across San Joaquin County. Every year a few students receive a perfect or nearly perfect score. These students are recognized as the highest scoring individuals.

This tournament helps schools promote excellence in math, raise student test scores, increase student self-esteem, develop problem-solving skills, and hone cooperative skills in a competitive environment. The SJCOE Mathematics Department hosts the County Math Tournament every year.

Top-Placed Teams
