

# TECHNICAL ASSISTANCE & MONITORING SOIREE

San Joaquin County Office of Education is pleased to host representatives from California Department of Education's Technical Assistance Monitoring Office (TAMO).

The focus will be on English learner programs and support, prioritizing the lessons learned from previous reviews and how to best meet state and federal requirements to ensure our students' success. Districts do **not** have to be in an FPM monitoring year to attend and this is **not** a repeat of FPM training.

Please share this with district, county, and charter school coordinators, directors of state and federal program, coordinators of English learner programs, and staff responsible for Federal Program Monitoring.

**Monday, August 19, 2024**  
**8:30 am - 11:30 pm**
