BUILDING THINKING CLASSROOMS

VIRTUAL BOOK STUDY

“Thinking is a necessary precursor to learning, and if students are not thinking, they are not learning.” Peter Liljedahl, author of Building Thinking Classrooms, found through research that only about 20% of students in math classes are actually thinking and reasoning about the mathematics. Join us on a journey of exploring the teaching practices that Peter has found enhance learning and flip that 20% to 80%.

SJCOE will be offering a
virtual book study
Mondays from 4:00 PM - 5:00 PM
beginning Monday, January 27

January 27, 2025
February 3, 2025
February 10, 2025
February 24, 2025
March 10, 2025
March 31, 2025

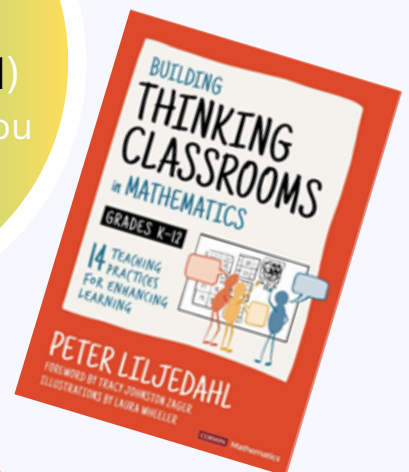

(Virtual via **ZOOM**)
