

# EduTalks

*Empowering Educators through Innovative Ideas*

*At Teachers College of San Joaquin, we believe in the power of innovative ideas to challenge current thinking, foster meaningful relationships, inspire deep reflection, and transform daily practice. Join us for a 2-hour session to experience how EduTalks can revolutionize your educational setting.*

**Talk: "Leading with AI: Harnessing Generative Tools for Transformative Educational Leadership"**

**Presenter: Viry Tun**

With 19 years in education, Viry Tun has been a teacher, Curriculum Specialist in Technology Integration, and is now an Assistant Principal. He brings a wealth of expertise in leveraging generative AI tools to transform teaching and leadership.

**Talk: "Reimagining 21st Century Learning with the Power of AI"**

**Presenter: Kristin Ward, M.Ed.**

Kristin brings nine years of experience in education. Kristin is especially excited about the intersection of education and technology, leveraging AI to streamline processes, support equitable practices, and empower educators to focus on helping students reach their full potential.
