GRADES K-2 8:15AM - 11:15AM

GRADES 3-6 12:00PM - 3:00PM

Routines to Address Accelerated Learning

Have you been thinking about how you are going to address learning acceleration this coming year? If you have been wondering about how you are going to facilitate rigorous grade-level mathematics while utilizing just-in-time supports in order to address unfinished learning, SJCOE has the perfect offering for you. This session will focus on Math Routines designed to not only assess potential unfinished learning, but also accelerate the learning necessary for success with grade-level math.

In this three-hour session, you will learn

- How to facilitate Number Routines designed to assess and support unfinished learning.
- How to maintain the level of rigor during the facilitation of a routine.
- How to engage our learners throughout the routine.
