All information in this directory was submitted by
individual districts and is considered accurate as of
September 2006.

This Directory was compiled and prepared for
publication by San Joaquin County Office of
Education, Public Information Office.

**A message from Fredrick A. Wentworth,
San Joaquin County Superintendent of Schools**

This San Joaquin County Public Schools Directory continues to be one of the most popular San Joaquin County Office of Education publications. We distribute more than 6,000 directories each year to parents, various community groups, business owners, government officials, and school sites. We recognize the importance that schools play in every community, coupled with the importance of being able to contact those schools and administrators for information and support.

There are more than 135,000 students who attend schools throughout our 15 school districts. We believe that each student receives a quality education provided by some of the best support staff, teachers, counselors, and administrators in the State. We are proud of our schools and of the students who attend them!

We are also proud of the communities that support our schools. Our partnerships with businesses, community organizations, legislators, and with parents enables us to build an educational network that truly makes San Joaquin County second to none in respect to the comprehensive education that we provide to our students.

I hope you find the 2006-07 San Joaquin County Public Schools Directory a helpful resource in connecting with your local school.

Sincerely,

A handwritten signature in cursive script, appearing to read "Fredrick A. Wentworth". The signature is written in dark ink on a white background.

Fredrick A. Wentworth
San Joaquin County Superintendent of Schools
