WE INVITE YOU!

2022 Summer Math Professional Learning Registration

We are excited to announce the Summer 2022 math professional learning at San Joaquin County Office of Education. Dive into the principles and practical ideas from Building Thinking Classrooms in Mathematics by Peter Liljedahl. Learn how to plan multidimensional lessons and incorporate approaches that have proven to transform practices using your grade level math content for TK-2,3-5,6-8, and High School in a relaxing, joyful summer setting.

Participants will:

- **Experience** a plethora of macro-moves and micro-moves intended to create optimal learning conditions for learner-centered, student-owned deep mathematical thinking and learning
- **Explore** and learn strategies and approaches that not only require thinking but will encourage thinking. You will gain insights into how everything from teacher’s questions to arrangement of the furniture can add to your student learning
- **Learn** how to select and implement high leverage math routines, rich tasks, and engaging activities to foster student engagement and provide opportunities for students to experience joy in mathematics

**Dates:** June 1-3, 2022 and July 20-22, 2022  
**Time:** 8:30am - 3:00pm  
**Location:** 2707 Transworld Dr., Stockton, CA 95206

“If we want our students to think, we need to give them something to think about - something that will not only require thinking but will also encourage thinking.”  
-Peter Liljedahl
